Baby Safety at a Glance (6-12 months old)

(<http://childsafetylink.ca/wp-content/uploads/2016/04/asian-baby-teething-stroller.jpg>)

Your baby is very busy and is learning new skills every day. Between 6 and 12 months old, your baby may:

- sit up
- crawl
- pull on things to stand up
- walk
- climb
- try new food
- be very interested in toys
- pick up small items and put them in his or her mouth
- babble and copy sounds

How You Can Keep Your Baby Safe

We understand how overwhelming parenting can be, but you've got this! This resource will tell you how you can keep your baby safe at home, on the road, and at play:
